

## Custom BSSD Weight Classes

We will be using the "custom BSSD" weight classes again. For several years we tried to group our wrestlers in classes they truly belonged and not strictly using the actual weight classes. While this has had very good results for the kids it has created some questions about why a wrestler that might be a little heavier or a little lighter is competing in a weight class that they wouldn't normally participate in.

This year we will, again, be using names, not numbers, for the weight classes. These names will align with traditional weights but hopefully will diminish the confusion.

Here are the classes and the traditional weights they represent... for the most part.

<b>Weight Class</b>	<b>Elementary</b>	<b>Junior High</b>
