

## Host School Responsibilities

It is the responsibility of the host school to provide an opposite sex chaperone (if needed) and meals for the visiting teams. *Please see chaperone responsibilities in the Coach/Chaperone Handbook.*

A district wide menu has been developed for student activities and food has been/will be sent to each site. Food has *only* been ordered for district-sponsored activities (see activity schedule). Unless approved by the Food Service Coordinator, no food that is used in the food service program is to be used for school activities. Food can be provided for invitational events utilizing JOM or other funds. These efforts need to be coordinated through the catering department (date(s), number of participants, type of food, etc.)

The host school is also responsible for preparing the meals. There is no money allocated for on-site meal preparation other than for district or regional championships that are sponsored by the BSSD Student Activities Office.
